

Advanced Databases

CIS-279 1

Fall Term 2022-2023 School Year Section 1 3.00 Credits 08/22/2022 to 12/09/2022 Modified 08/16/2022

Course Description

This course will provide students the opportunity to work with Microsoft SQL Server. Large tables allows for the ability to make SQL queries more efficient. Students learn how to use SQL Server tool like Management Studio and Query Analyzer to effectively create and maintain databases. Reporting software will also be covered in the course. Prerequisite: CIS 194

Outcomes

Course Outcomes

Upon successful completion of this course, the student shall be able to

- Define and utilize database terminology effectively.
- Create queries using SQL.
- Utilize t-SQL statements in writing SQL.
- Write and use scripts to solve problems.
- Write stored procedures, functions, and triggers
- Describe database access standards.

Program Outcomes

Science and Technology

- Develop software applications to solve a business problem.
- Demonstrate proficiency in the design and use of databases.

Problem Solving/Critical Thinking

- Appraise the strengths and weaknesses of one's completed work.
- Analyze a client's software requirements in order to develop possible solutions.

Professionalism

- Utilize professional resources (i.e. professional organizations, media and IT websites).
- Use effective time management skills.

Communication

- Research and present an IT topic using appropriate terminology.
- Write programs with clarity, efficiency, and accuracy.

Additional Outcomes

Course Materials

Murach's SQL Server 2019 for Developers

Author: Bryan Syverson, Joel Murach

Publisher: Murach

ISBN: 9781943872572

Availability: Campus Bookstore

eBook also available (ISBN 9781943872701)

SQL Server 2019

SQL Server 2019

SQL Server Management Studio (SSMS)

Availability: STC VMware

The software will be on your STC laptop or available through VMware Horizon Client
